

During Rodger Purcell's employment with a contract security company located at the Anchorage Federal Courthouse, Rodger was able to establish himself into the title of union president. What the employees did not know is that Rodger Purcell was also working for a company called Primerica. This company specializes in helping families get out of debt and become financially dependent. While Rodger Purcell was president of the union he allocated \$5000.00 from the workers union funds into a company called Citicorp, which is a subsidiary of Primerica. Rodger Purcell did this with out a vote or even bringing it to the attention of the co-workers. The coworkers found out there was missing funds and confronted Rodger Purcell about this. They confronted Rodger Purcell about violations to their collective bargaining agreement and by laws. Rodger Purcell immediately resigned from this job in October 2003 and his chair seat of union president.

I am sure a trip to the Anchorage Federal Courthouse would be well knowledgeable. The workers that work there today still absolutely despise Rodger Purcell.

Chief of Police Andy Anderson Seldovia PD is on a gag order and can not talk about why Rodger Purcell resigned from Seldovia Police Department. All City employees are on this order and can not speak of the activities. However there is nothing in the gag order that states that former City employees who were employed at the same time Rodger Purcell was, but no longer work for the City aren't allowed to talk. While working for Seldovia Police Department confidential city information was continuously being leaked to the public. The city had it narrowed down to two individuals that it may have been. While the other individual was away on vacation the City held a private meeting and salted the files with false information. This false information got leaked out to the public several days later. Investigation revealed only one person had the ability and access to these city documents. Because the other person was out on vacation they confronted Rodger Purcell about burglarizing city files. Rodger Purcell immediately resigned his position as Police Officer for the City of Seldovia.
